Mail Room Management  Tracks Incoming and Outgoing Consignments »	Project Management  Project Planning, Activity Tracking »	Workflow Engine  Create and Customize Workflows »	eFACiLiTY Mobile  Asset Validation, Work Orders Processing, Inspection and Readings »

COLMAN retail

Retail Distribution/Sales Management Software

COLMAN Retail is a state of the art and comprehensive web based software that caters to the end-to-end needs of companies involved in retail distribution / direct supply of their products to retail outlets with various modules covering Procurement and Inventory Management, Order Processing, Sales Management, Account Receivables, Retail Audit, Merchandising, Analytics and MIS Reporting requirements etc. The software can also cater to Distributor's management, C&F Management and Consignment Agents Management covering their end-to-end operations.

WebBPOS

Web Based Point of Sale System

WebBPOS is a completely web-based Point of Sale system that delivers the speed and flexibility needed for retail establishments with multiple sales counters. WebBPOS is designed to help retail businesses to keep track of customers, products sold, sales and inventory, manage vendors, credit customers etc. The system can also be implemented centrally and online for use by chain stores, super markets, restaurants and all kinds of retail stores. The system also supports multi-currency operations for use at duty-free shops and is well integrated with popular POS hardware.

WMCentral

Warehouse Management System

WMCentral takes care of the inventory and warehouse management needs of medium / large Warehouses and helps in complete automation. The web based system allows automatic / manual stack allocations for the incoming inventory, prints the barcode labels for easy / accurate identification, checks the position once stacked, displays the positions automatically while issuing and provides Stock Taking features for periodic inventory checking. Integrations with Automated Storage & Retrieval Systems (ASRS) and RFID systems are available. A handheld module is also available.
